

## Possible mounting situations

### Single, freestanding

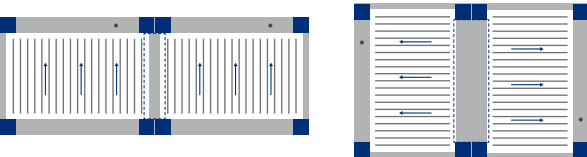

-  Column
-  Wall coupling profile

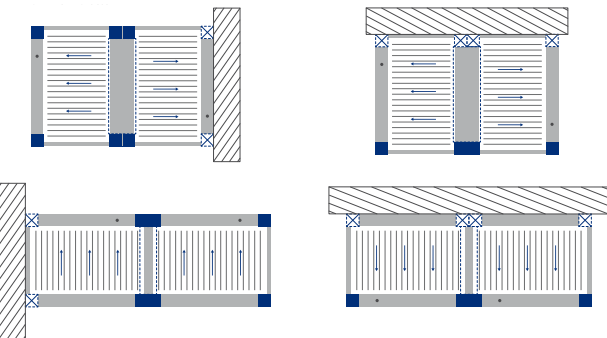

### Single, wall-mounted

### Coupled, freestanding

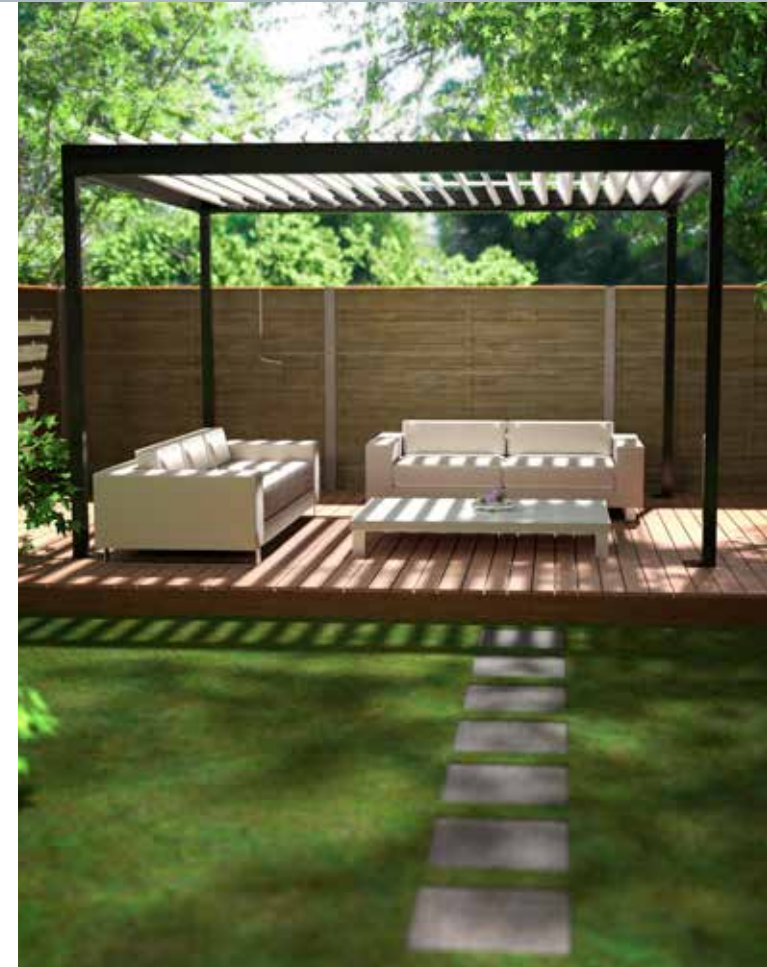

### Coupled, wall-mounted

## Benefits

- The roof is operated manually: reliable, rapid operation
- No electricity required
- Available in two colours: white and warm black
- Bicolour is possible (blades and structure in differing colours)
- Easy, rapid installation
- 1 standard dimension: 3.5m [span] x 4m [pivot] x 2.5m [max. passage height]
- Column length can be shortened as desired using calibre
- Can be coupled (using optional coupling profiles)
- Freestanding or wall-mounted
